MiX Telematics' X-Drive...

The first pay-as-you-go tracking solution of its kind, X-Drive from MiX Telematics, can conveniently be purchased through South Africa's popular online retailer, Kalahari.net. The X-Drive, formerly known as ShurDrive, is a convenient, user-friendly tracking and tracing unit that allows users to self-manage the tracking requirements of their vehicles anytime, anywhere. With a myriad of features and services designed to make driving more productive and safe X-Drive is a non-intrusive unit that provides real value. Designed to suit your pocket, it is the only prepaid or pay-as-you-go tracking product of its kind, requiring no contract and the user pays only for the services used. There is an automatic theft detection function - users receive instant notification of unauthorised movement, theft and tow-away and the unit can detect the level of impact if the driver is involved in an accident. Visit www.x-drive.co.za. To view and purchase the product visit www.kalahari.net.
