

# Matrix spreads the love

At this time of the year when giving and remembering those less fortunate is top of the mind, the staff at Matrix Vehicle Tracking went all out to ensure that 152 children have a happier festive season this year.

On November 20, Epworth Children's Village had a surprise visit from Santa's Matrix Vehicle tracking elves, who delivered 152 presents to the children.

Staff members at Matrix Vehicle Tracking each chose a child from a list and bought a specific gift for that child.

Matrix Vehicle Tracking sponsored an additional 40 gifts that were distributed.

The staff also donated additional items for the home, including old toys, clothing and food.

"To see the joy on a child's face is the greatest gift of all," said Hannelie Snow, communications officer for Matrix Vehicle Tracking.

"It makes a project of this nature so worthwhile.

"We were supported by generous sponsors, namely MTN who supplied caps for the children, and Nampak Redibox who supplied boxes for the gifts.

"Many thanks to them."

The staff at Matrix Vehicle Tracking wished all the children a happy holiday and a very special festive season.
